Statutory Auditors' Report:

The company always strives to present an unqualified Financial Statement. However, there are some observations on Auditor's Report for the F.Y. 2025-26, which are as under:-

Auditor's Observation :-

1. The past Managing Director, Mr Manmohan Gupta, had fraudulently shifted the entire business of the company including its Intellectual Property, to his own entity. Consequently, there is no revenue from operations during the year under review. The Company is making efforts to get back its business. The Company operates in a single segment and the results pertain to a single segment in accordance with IND AS 108-Operating Segment
2. The Company had increased the authorized capital from Rs 21 crores to Rs 70 crores during the F.Y. 2010-2011. ROC fees of Rs. 55.97 lacs towards the same stands payable and provided in the books. No provision has been made for any interest or fines payable thereon. Company's writ petition challenging the revision in fees on the ground that the capital was increased prior to the 2013 Amendment, is pending in Delhi High Court. Impact of the differential ROC fees payable as per Companies Act 2013 and the amount provided in the books of accounts is shown as Contingent Liability in the Annual Financial Statement for the Financial Year ending as on 31.03.2026.
3. Statutory dues of service tax / TDS / Professional Tax aggregating to Rs. 1.9 crores are outstanding since F.Y. 2009-10; service tax returns have not been filed from FY 2011-12 onwards. No provision has been made for interest / penalties payable on such default.
4. Company has not provided estimated credit loss on outstanding debtors as per IND AS-109, since management is of the opinion, all the receivables are good and realisable.
5. Company has not disclosed realisable value of investments of Rs. 1.47 Crore invested in unquoted non-current investments hence we cannot estimate the impairment in value of non-current investment.

Explanation to aforesaid Auditors Observation:

1. The past MD Mr Manmohan Gupta, had fraudulently shifted the entire business of the company including its Intellectual Property to the other entities formed by him. The Board had constituted an Investigation Committee to investigate into the matter of closure of Mumbai Office of the Company and recovery of Company's business and assets.
2. The Company has increased its authorised capital from Rs. 21 Crores to Rs. 70 Crores during the period from F.Y. 2010-11. However, due to financial constraints and technical problems the company could not file Form 5 with ROC for increase in its authorised share capital. With the advent of the Companies Act, 2013 which came into effect from 01st April, 2014, the schedule of fees applicable w.r.t. increase in Authorised capital has been revised and increased. The Schedule of fees as per the Companies Act, 2013 has been made applicable and payable on the increased authorised share capital which the Company had increased prior to the applicability of Companies Act, 2013. Therefore, the company had filed the writ petition in the Hon'ble High Court of Delhi challenging the applicability of provisions prescribed under Para 3 of Table B under Registration of Offices and Fees Rules, 2014 vide diary no. 159963 dated 30/05/2016. The fees and Additional fees payable as per Companies Act, 1956 has already been provided for hence there is no further impact on the financials/ profitability of the company.
3. As regards Auditor observation that the Statutory dues of Rs.191.45 lacs are still payable, we hereby state that our Company has already provided for the amount payable towards Service Tax. Hence this liability will have no further impact on the profits/ losses of the company for the period under consideration. Further, the management of the company is making necessary efforts to arrange the funds required to repay the same.
4. As per management opinion debtors are fully realisable and no estimated credit loss on outstanding debtors is required.

5. As per management assessment of value of investment, no impairment provision on investment is required since there is no permanent diminution in value of investments.

Management Discussion & Analysis Report

INDUSTRY OVERVIEW

The Company was originally incorporated with the principal object of carrying on business in the digital cinema and information technology-enabled services (ITeS). Owing to prolonged inactivity in this segment, limited revenue generation and evolving market dynamics, the Board of Directors undertook a comprehensive review of the Company's existing business operations and future growth opportunities.

During the financial year under review, the Company's operations remained limited and revenue generation from its existing business was correspondingly limited. Subsequent to the closure of the financial year, the Company has identified and initiated steps to undertake a new line of business in the consumer electronics and allied products sector, with the objective of establishing new business operations and developing sustainable revenue streams. As this new business activity was undertaken subsequent to the close of the financial year, it did not contribute to the financial performance of the Company for the year under review. The financial and operational impact of the new business activity will be reflected in the financial statements for the periods in which such activities are actually commenced and undertaken.

The proposed new business activities are intended to cover trading, distribution, sourcing, procurement, marketing, import, export, wholesale, e-commerce and other allied commercial activities relating to consumer electronics, electrical and electronic appliances, communication devices, digital products, accessories, peripherals and allied products, including mobile phones and smart devices, wearables, smart-home and IoT products, computing and networking products, home appliances and related accessories.

The consumer electronics industry continues to be shaped by rapid technological advancement, increasing digitalisation, evolving consumer preferences, expanding internet connectivity and growing adoption of smart and connected devices. The continued expansion of organised distribution, e-commerce and digital channels is also creating opportunities for businesses engaged in sourcing, trading, distribution and supply of consumer electronics and allied products.

Key Drivers of Demand in India

The demand for consumer electronics and allied products in India is being supported by increasing digitalisation, technological advancement and changing consumer preferences. The key drivers of demand include:

- 1. Rising Digitalisation and Connectivity**
Increasing use of digital platforms for communication, education, work, entertainment and financial services is driving demand for smartphones, computers, tablets, communication devices and other digital products.
- 2. Growing Adoption of Smart and Connected Devices**
Increasing consumer preference for smart devices, wearables, smart-home products and IoT-enabled solutions is creating new demand across consumer electronics categories.
- 3. Expansion of E-Commerce and Digital Distribution**
The continued growth of e-commerce and digital sales channels is improving the availability and accessibility of consumer electronics products across different geographies and customer segments.
- 4. Changing Lifestyles and Consumer Preferences**
Rising awareness, evolving lifestyles and preference for convenience, efficiency and technologically advanced products are supporting demand for electronic appliances, home entertainment products, accessories and other consumer durables.
- 5. Technology Upgradation and Product Replacement**
Rapid technological developments, new product features and shorter technology cycles are encouraging consumers to upgrade and replace existing electronic devices, thereby supporting recurring demand for new products and related accessories.

Geographic Distribution of Consumer Electronics in India

The Indian consumer electronics market has a **broad geographic presence**, with demand concentrated in major metropolitan and Tier-I cities while steadily expanding across Tier-II, Tier-III, semi-urban and emerging markets. Increasing internet penetration, digitalisation, improving logistics infrastructure and the growth of e-commerce have enabled consumer electronics products to reach a wider customer base across the country.

The regional distribution of the consumer electronics market is broadly estimated as follows:

- **North India – 29.8%:** Largest regional market, supported by Delhi-NCR, Uttar Pradesh, Punjab and Haryana, with strong urban and emerging-market demand.

- **South India – 27.4%:** Major markets include Karnataka, Tamil Nadu, Telangana, Andhra Pradesh and Kerala, supported by technology adoption, urbanisation and established electronics ecosystems.
- **West India – 24.6%:** Maharashtra and Gujarat are key markets, supported by higher purchasing power, developed commercial infrastructure and strong demand for premium electronics.
- **East India – 18.2%:** Includes West Bengal, Odisha, Bihar, Jharkhand and the North-Eastern markets, with increasing demand driven by digital connectivity and expanding distribution networks.
- **Emerging Markets:** Demand is increasingly expanding beyond metropolitan centres into **Tier-II, Tier-III and smaller cities**, supported by e-commerce, improving logistics and wider digital connectivity.

MARKET SIZE & GROWTH

The Indian consumer electronics market has witnessed sustained growth over the years and is expected to continue expanding, supported by increasing adoption of digital and connected products, technological advancement and changing consumer preferences.

Key areas contributing to the growth of the market include smartphones and communication devices, consumer durables, home appliances, computers and peripherals, wearables, smart-home products, IoT-enabled devices and electronic accessories.

The growth of e-commerce and digital distribution channels is further supporting market expansion by enabling wider product availability and geographic reach. In addition, shorter technology cycles and increasing consumer preference for upgraded products are creating recurring demand for replacement and newer-generation devices.

The Company believes that the long-term growth prospects of the sector remain favourable, although the actual growth trajectory will depend upon consumer demand, economic conditions, technological developments, competitive intensity and other market factors.

GOVERNMENT INITIATIVES

The Government of India has undertaken several policy initiatives to strengthen the electronics ecosystem, promote domestic manufacturing, enhance local value addition, reduce import dependence and position India as a competitive global electronics manufacturing hub. The principal initiatives relevant to the consumer electronics sector include the following:

1. Production Linked Incentive Scheme for Large Scale Electronics Manufacturing

The Production Linked Incentive (“PLI”) Scheme for Large Scale Electronics Manufacturing (“LSEM”), introduced in 2020, has been a key initiative for promoting domestic manufacturing of mobile phones and specified electronic components. The scheme provides incentives linked to incremental sales and is aimed at attracting investment, increasing domestic value addition and strengthening India's electronics manufacturing ecosystem.

As reported by the Government, up to March 2026, the PLI-LSEM scheme had recorded cumulative investment of approximately ₹20,587 crore, against the scheme target of ₹7,000 crore. Cumulative production stood at approximately ₹11,61,581 crore, against the target of ₹8,12,550 crore, while cumulative exports stood at approximately ₹6,43,323 crore, against the target of ₹4,87,530 crore.

The scheme has contributed significantly to the development of India's mobile manufacturing ecosystem. As of FY 2025–26, approximately 99.2% of mobile phones used in India were manufactured domestically, and India had emerged as the world's second-largest mobile phone manufacturer by volume.

2. PLI Scheme 2.0 for IT Hardware

The Government has also implemented PLI Scheme 2.0 for IT Hardware to encourage domestic manufacturing of laptops, tablets, servers and other specified IT hardware products.

The scheme is intended to attract investment, increase domestic production, strengthen the domestic supply chain and reduce dependence on imports. As reported by the Government, the scheme had generated cumulative production of approximately ₹24,385.89 crore, cumulative investment of approximately ₹1,056.36 crore and 5,216 direct jobs as of the latest reported position in FY 2025–26.

3. Electronics Components Manufacturing Scheme

The Electronics Components Manufacturing Scheme (ECMS) is aimed at developing a strong domestic ecosystem for electronic components and strengthening India's position across the electronics value chain.

The initiative focuses on promoting domestic manufacturing of critical components and sub-assemblies, thereby supporting higher domestic value addition and reducing dependence on imported components. The scheme is particularly relevant to the broader consumer electronics industry as the availability of domestic components can strengthen supply-chain resilience and support the development of local manufacturing capabilities.

4. Semicon India Programme

The Government's Semicon India Programme is aimed at developing a sustainable semiconductor and display manufacturing ecosystem in India. The programme supports the development of semiconductor fabrication, display manufacturing, semiconductor packaging and other related capabilities.

The development of a domestic semiconductor ecosystem is expected to strengthen India's electronics value chain over the long term by improving access to critical components and supporting higher domestic value addition in electronics manufacturing.

5. Electronics Manufacturing Clusters and Supporting Measures

The Government has also implemented initiatives such as the Modified Electronics Manufacturing Clusters (EMC 2.0) Scheme, along with measures relating to electronic components and semiconductor manufacturing, to facilitate the development of manufacturing infrastructure and supporting ecosystems.

In addition, the Public Procurement (Preference to Make in India) Order supports domestic manufacturing by providing preference to locally manufactured products in specified government procurement, while the policy permitting 100% Foreign Direct Investment in the electronics sector under the applicable route has supported investment and participation in the sector.

Impact on the Electronics Sector

The cumulative impact of these initiatives is reflected in the significant expansion of India's electronics manufacturing ecosystem. According to Government data, electronics production increased from approximately ₹1.9 lakh crore in FY 2014–15 to around ₹12 lakh crore in FY 2024–25, while electronics exports increased from approximately ₹38,000 crore to around ₹3.3 lakh crore over the same period. Mobile phone production increased to approximately ₹5.45 lakh crore in FY 2024–25, while mobile phone exports reached approximately ₹2 lakh crore.

Further, as at March 2026, the PLI-LSEM scheme had exceeded its original five-year targets for investment, production and exports, demonstrating the growing scale of India's electronics manufacturing ecosystem.

Relevance to the Company

The policy environment and continued development of India's electronics ecosystem provide a supportive backdrop for the Company's new business activity in consumer electronics and allied products. The Company's proposed activities are primarily focused on trading, distribution, sourcing, procurement, marketing, import, export, warehousing, logistics, supply chain management, wholesale, e-commerce and other allied activities.

Accordingly, the Company's business may benefit indirectly from the increasing scale of domestic electronics manufacturing, wider availability of products and components, development of organised supply chains and expanding distribution opportunities.

INDUSTRY STRUCTURE AND DEVELOPMENTS

The Indian consumer electronics industry is a rapidly evolving sector comprising mobile phones, communication devices, home appliances, computers, smart devices, accessories and other allied products. 1. Fixed pay

The remuneration and reward structure for employees comprises two broad components - annual remuneration and long-term rewards. The Committee would determine the remuneration of the Directors and formulate guidelines for remuneration payable to the employees.

These guidelines are as under:

a) Annual remuneration

Annual remuneration refers to the annual compensation payable to the employees of the Company. This comprises two parts - a fixed component, and a performance-linked variable component based on the extent of achievement of the individual's objectives and performance of the business unit. Employee is required to determine his/her key result areas for that particular defined role. The performance-linked variable pay will be directly linked to the performance on individual components of the performance and the overall performance of the business. An employee's variable pay would, therefore, be directly dependent on key performance measures that represent the best interests of shareholders.

The objective is to set the total remuneration at levels to attract, motivate, and retain high-caliber, and high potential personnel in a competitive global market. The total remuneration level is to be reset annually based on a comparison with the relevant peer group globally, established through independent compensation surveys, from time to time.

b) Long-term rewards

Long-term rewards may be granted to eligible key employees based on their contribution to the performance of the Company, relative position in the organization, and length of service under the supervision and approval of the Committee.

The grant, vesting and other scheme details would be formulated from time to time.

These long-term reward schemes are implemented to attract and retain key talent in the industry.

INDEPENDENT AUDITOR'S REPORT

To the members of INTERWORLD DIGITAL LIMITED
Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying stand-alone financial statements of INTERWORLD DIGITAL LIMITED ("the Company"), which comprise the Balance Sheet as at 31st March 2026, the Statement of Profit & Loss (*including Other Comprehensive Income*), the Statement of Changes in Equity and the Cash Flow Statement for the year ended, and a summary of the Significant Accounting Policies and other explanatory information (*hereinafter referred to as Standalone Financial Statements*).

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March, 2026, the net loss and total comprehensive income, changes in equity and the cash flows for the year ended on that date.

Basis for Qualified Opinion:

- 1. The past MD Mr. Manmahon Gupta had fraudulently shifted the entire business of the company including its Intellectual Property, to his own entity: consequently there is no revenue from operations since long time. The Company is making efforts to get back this business.***
- 2. The Company had increased the authorized from Rs 21 crores to Rs 70 crores during the FY 2010-2011. ROC fees of Rs. 55.97 lacs towards the same stands payable and provided in the books. No provision has been made for any interest or fines payable thereon. Companies writ petition challenging the revision in fees on the ground that the capital was increased prior to the 2013 Amendment, is pending in Delhi High Court. Impact of the Differential ROC fees payable as per Companies Act 2013 and the amount provided in the books of accounts is shown as Contingent Liability in the Annual Financial Statement for the Financial Year ending as on 31.03.2026.***

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134 (5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with **Ind AS** and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for

- safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities
- selection and application of appropriate accounting policies
- making judgments and estimates that are reasonable and prudent and
- design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143 (3) (i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced.

We consider quantitative materiality and qualitative factors in;

- (i) planning the scope of our audit work and in evaluating the results of our work; and
- (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters.

We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

(Referred to in paragraph “f” under “Report on Other Legal and Regulatory Requirements” section of our report of even date)

Report on the Internal Financial Controls with reference to Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls with reference to Financial Statements of **INTERWORLD DIGITAL LIMITED (“the Company”)**, as of 31 March 2026 in conjunction with our audit of the stand-alone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management and Board of Directors are responsible for establishing and maintaining internal financial controls with reference to financial statements based on the internal control over Financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to financial statements, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Control over to Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under section 143 (10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to financial statements.

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Financial Statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to Financial Statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls With Reference to Financial Statements

A company’s internal financial control with reference to Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

A company’s internal financial control with reference to Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company ; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company ; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Financial Statements to future periods are subject to the risk that the internal financial control with reference to Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to Financial Statements and such internal financial controls with reference to Financial Statements were operating effectively as at 31 March 2026, based on the internal financial control with reference to Financial Statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

v) Revenue recognition:

Revenue is recognized to the extent that it is possible that the economic benefits will flow to the company and the revenue can be reliably measured.

vi) Leases

The Company, as a lessee, recognizes a right of-use asset and a lease liability for its leasing arrangements, if the contract conveys the right to control the use of an identified asset.

The contract conveys the right to control the use of an identified asset, if it involves the use of an identified asset and the Company has substantially all of the economic benefits from use of the asset and has right to direct the use of the identified asset. The cost of the right-of-use asset shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date plus any initial direct costs incurred. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate.

For short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the lease term.

vii) Provisions and contingencies**(a) Provisions**

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount of the obligation is available for measuring the amount of provision. Provisions are reviewed at each reporting period and are adjusted to reflect the current best estimate.

(b) Contingencies

A disclosure for contingent liability is made when there is possible obligation arising from past event the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

A disclosure for contingent assets is also made when there is possibility of an inflow of economic benefits to the entity which arise from unplanned or other unexpected events.

Contingent liabilities and contingent assets are reviewed at each balance sheet date.

viii) Earnings per share:

Deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax is measured at the tax rates and tax law that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the year in which those temporary difference is expected to be recovered or settled.

x) Financial instruments:**Initial measurement**

All Financial assets and financial liabilities are measured at fair value on initial recognition, except for trade receivable which are initially measured at transaction price. Transaction cost that are directly attributable to the acquisition or issue of financial instrument (other than financial measured at fair value through profit or loss) are added or deducted from the value of the financial instrument, as appropriate, on initial recognition.

A financial asset is primarily derecognized when the contractual right to the cash flow from the financial asset expires and it transfers the financial asset.

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

(xi) Impairment

A) Financial Asset

The Company measures the expected credit loss associated with its assets based on historical trend, industry practices and the business environment in which the entity operates or any other appropriate basis. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

B). Non-Financial Asset

(a) Property, plant and equipment and Intangible asset

The carrying amounts of the Company's assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the assets' recoverable amount is estimated as higher of its net selling price and value in use. An impairment loss is recognized whenever the carrying amount of an asset or its cash generating unit exceeds its recoverable amount. Impairment losses are recognized in the statement of profit and loss.

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined net of depreciation or amortization, had no impairment loss been recognized.

Post Impairment, depreciation/amortization is provided on the revised carrying value of the impaired assets over its remaining useful life.

(b) Critical accounting estimates, assumptions and judgements

In the process of applying the Company's accounting policies, management has made the following estimates, assumptions and judgements, which have significant effect on the amounts recognized in the financial statement. Uncertainty about these assumptions and estimates could result in outcome that require a material adjustment to assets or liabilities affected in future periods.

b) Property, plant and equipment

Property, Plant and equipment represent at proportion of the asset base of the company. The useful lives and residual value of the company's asset are determined by the management at the time the asset is acquired and reviewed at each reporting date.

ii) Income taxes

The Company's tax jurisdiction is India. Significant judgements are involved in estimating budgeted profits for the purpose of paying advance tax, determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions

iii) Contingencies

Management judgement is required for estimating the possible outflow of resources, if any, in respect of contingencies/claim/litigations against the Company as it is not possible to predict the outcome of pending matters with accuracy.

iv) Allowance for uncollected accounts receivable and advances

Trade receivables do not carry any interest and are stated at their normal value as reduced by appropriate allowances for estimated irrecoverable amounts. Individual trade receivables and advances are written off when management deems them not to be collectible. Impairment is made on the expected credit losses, which are the present value of the cash shortfall over the expected life of the financial assets.

v) Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the assets's recoverable amount. An assets's recoverable amount is the higher of an assets's or CGU's fair value less costs of disposal and its value in use. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

vi) Impairment of financial assets

The impairment provisions for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

vii) Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques, including the discounted cash flow model, which involve various judgements and assumptions.
